    **----------Welcome to Result Management system!----------**
    **                                                        **
    **                                                        **
    **              [1] Login                                 **
    **              [2] Register as Class teacher             **
    **              [3] Show all result                       **
    **              [4] Go to Developer option                **
    **              [0] EXIT!                                 **
    **                                                        **
    **                                                        **
    *********************************************************************

=======>>Enter Your Choise :_
```

✦ Register as Class Teacher: In this feature a teacher can easily register our project by providing his First Name, Last Name, email address, Username and Password.

```
[2] Register as Class teacher
```

```
    ======> Enter your first name : Tamim

    ======> Enter your last name  : Iqbal

    ======> Enter Your email      : tamim@gmail.com

    ======> Enter your user name  : tamim

    ======> Enter your password   : 1234_
```

+ Log in: we provides this feature for our security concern. In this feature User can not access or can not go our project Main menu without Register username and password.

+ Published Result: After log in a teacher can see all students result, which result he published .

+ Entry Result: After log in ,A teacher can easily entry students result by his name and Roll number.

Log out: After Publishing the result a teacher can log out his account.

Show All Result: Our project provides the students results. For that reason we have some concern for students. We used this option for as an alternative for result notice board. In this option, Students Can see their result without any kind of registration or log in.

```
########  All Student Result :
